TUESDAY HORN'G, MAY 22, 1855

R. Bonner, publisher of the New York Ledger, has made a contract with Fanny Fern to write a story for his paper and the publication of it will be commenced on the first of June. He pays her the enormous sum of one hundred dollars per column; the story will be continued for several weeks. The price of the paper is only one dollar per year; those who want to read the story must subscribe for the paper, for it will not be published in any other form.

17 The Touro Hospital, which was largely endowed by the late Judah Touro, was dedicated last week in New York ; the operaus duties of the Secretary of the Newport Gas Light Company prevented him from being present on the interesting occasion; his regrets, however, are somewhat modified by the fact that he did not receive an invitation.

The Muy Term of the Court of Common Picas, Judge Shearman presiding, will commence in this city this morning.

FIRE WORKS .- We call the attention of the public to the advertisement of Mr. Jas C. Hovey, the experienced pyrotechnist. His works are too well and favorably known to require more than a mere passing notice.

"A PRESIDENTIAL TEAM.-The party that rallies on the Poole platform have made the following mominations for the

For President, Gen. JOSEPH HISS, of Massachusetts. For, Vice President, Mrs. PATTERSON, of Boston."

THE ARREST OF BAKER -The Washington Star of Thursday remarks that those who think that the arrest of Baker out of the territory of the United States, by Unitted States law officers, was illegal, are mistaken. He had at no time gone beyond the jurisdiction of the United Stafes, as he had constantly been on an American ves sel, under the American flag. Had he succeeded in landing at the Canary Islands threatrest would have been illugal.

The N. Y. Mirror thinks that the cannon of the United States should be brought to topal of debauchery and open prostitution levelled to the earth. It also thinks that the know nothing party could sweep the Union if it would abolish oaths und mystery; what dust it would raise if it were to sweep the Union, especially during the dry season.

KEEP OFF THE PLATFORM. -- Out of morthan twelve million passengers who were carried during the last year over sixteen of our main milroads, only twelve were killed and of the twelve eleven were standing on the platform when they met their death. So says the report of the State Engineer and Surveyor, and travellers on milroads should remember it and "keep off the platform." New York Courier.

There are six vacancies in the United States Senate-one whig and five democratic. New Hompshire, Indiana, Alabama. Missouri, Culifornia and Pennsylvania have each to elect a Senator. Mr. Gwin, of California, will claim a seat on the ground that a plurality vote elects in California, and he got that vote on the first ballot.

The story that Mrs Beccher Stowe had been burnt in efligy, and her sister insulted by thes tudents of the University of Virginia is pronounced by Virginia papers to be a slander; "nothing of the kind has taken place."

A PASTORAL GIFT .-- A Concord (N. H.) paper says :- "On Friday night of last week at about ten o'clock, someboily, being very generously inclined, left a nice little buby apparently about three months old at the door of the Rev. C. W. Flander's house in this city. The donor, probably thinking that the more secret the gift, the more acceptable, made a hasty retreat to avoid observation and has not been discovered,-This pastoral present is a smart little girl. lively as a cricket and totally unconscious of course, of the freak of fortune which has made her a foundling."

Elected .- Am of G. Chester, Esq., of the Buffalo Express, has been expelled from Yorktown Council No. 107. His offonce was that he declared in his paper that there was suc a Council, and that he was a member. Ex-brother Chester takes the thing very coolly, and invites those who voted for his expulsion "to an owner supper with champagne concomitants-provided they are willing to foot the bill."

When a young lady asks a gentleman to realf openflictions would be above floger, no bire a recoder, only the at would be advisable to take one's hat, or he may be caught with a "noone,"

A Model, Dun.-An editor "out West" pairons;

"Friends Patrons, Subscribers and Ad terlisers :

"Hear us for our debts, and get ready that you may pay; trust us, we are in need and have regard for our need, for you have been long trusted; acknowledge your indebtedness, and dive into your pockets, that you may promptly fork over. If there be any among you one single patron, that don't owe us something, then to him we saystep aside; consider yourself a gentleman. If the rest wish to know why we dun them? this is our enewer: Not that we care about cash ourselves but our creditors do.

"Would you rather that we go to jail, and you go free, than you pay your debts, and we all keep moving? As we agreed, we have worked for you; as we contracted we have furnished our paper to you'as we promised, we have awaited upon you; but as you don't pay we dun you! Here are agreements for Job work : contracts for subscription; promises for long credit.; and duns for defered payment. Who is there so mean that he don't take a paper? If any he needn't speak-we don't mean him. Who is there so green that he don't advertise? It any let him slide-he ain't the chap either. Who is there so bad that he don't pay the printer? If any, let him shout—he's the man we're after. His name is Legion and he's been owing us for one two, three, four, five, six, seven, and eight years-long enough to make us poor, and himself rich at our expense. If the above appeal to his conscience doesn't awake him to a sense of Justice, we shall have to try the law, and see what virtue there is in writs and constables."

PROGRESS OF CIVILIZATION .- The St. Paul (Minnosota) Daily Times has a musi. cal critic worthy of any oyster house in Broadway. He piles up the passion in truly artistic style. A juvenile fiddler having given a concert in St. Paul, the critic aforesaid was affected in the following had lathered him, look him by the nose, and mumer :- "A passion of most sweet music was rained on us from his deep eyes, a supreme sensation filling the soul brimfull, and subdaing all thought and feeling with laughing so, but I never saw such a thing in. In the exultation of some passages we! before. could have bowed down and worshipped. He is a great boy. He can't help it. He is the embodied soul of music. You see the article in the flash of his dark, spiritual eye." Pretty tall fiddling, we think that

The U. S. consulat Tangier, Morocco, recommeds to the state department to cover the halls of congress the vice president's and speaker's rooms, &c., with Nabat rugs, really the famous Turkish carpets. These rugs collect all the dirt, and are taken up weekly and shaken, thus preserving the cleanliness of the carpet. They are handsomer and more durable than the carpets they are used to cover, and so thick that treading on them is a luxury. They are never woven to exceed three yards in width but can be obtained of any length. As they are never nailed down, and can be removed at pleasure, their use would certainly secure greater cleanliness. They preserve their brilliancy and beauty to the last-The bashow of Tangier has one of these rugs in his reception room which he said had been used by his father and himself for sixty years, and is still good.

A pretty young German woman and her husband, named Hessing, have had P. T Barnum before the mayor of New York upon a charge of kissing said lady, &c. But it was prenounced to be a conspiracy to extort money, and the baby man was discharged.

Borrowed Sermons .-- It is stated in an English paper of recent date, that in the fourth volume of Doddridge's Collected Works, there is a sermon from the text Luke  $\hat{X}$ , 42. "One thing is needful;" and the same identical sermon appears amongst those of Whitefield!

Elam P. Littlefield has been appointed Inspector of Customs at New Shoreham, in place of Wm. Pitt Ball, deceased,

K. N. LITERATURE. - The Massachusetts Legislature has been amusing itself by granting acts of incorporations to certain Boston newspapers, the Bee, the official organ, and the Telegraph the pet of the Maine law people. On Saturday an attempt was made to confer a like layer upon the American Patriot, Simon Pure, blood and thunder, and papal Know Nothing. This was opposed, one member declaring "it would be as in famous a measure as it would be to incorporate the Life in Boston, 1"-He add d-'It had been said that the Legislature had dammed itself already, but he hoped that it would not make its damnation doubly sure by enacting the bill under consideration." This was conclusive, and the bill was deteated by a large majority.

CURIOUS CASE OF ABANDONMENT. -- A thus talks to his non-paying subscribers and liew day ago, Mrs. Georgiana M. Bute arrived in this city from London, England in search of her husband, who abandoned her some twenty years ago and omigrated to this country. After a great deal of searching and trouble, Mrs. Bate says she has discovered her long lost swain in the person of John H. Bate, proprietor of an extensive makingeny yard, at 133 Hudson street, and accordingly made a complaint against him for abandonment. A warrant was issued for the arrest of Mr. Bate, and placed in the hards of Sergeant Smith, of the Lower Police Court, for execution. Yesterday Mr. Bate was arrested and taken before Justice Bogart at the Lower Police Court, where he denied the charge er Police Court, where he denied the charge most strenuously, saying, that although he was a native of England, he never in the whole course of his life, saw his female accuser before. Mrs. Bate, however, insists that the accused is her husband, and says that about seven years ago she caught him in Canada, where he paid her handsomely for allowing him to get at large. Mr. Bate has a wife and family of grown-up children now residing in this city. Altogether the affair is a very curious one, and will, no doubt, be a matter of some grave consideration for the magistrate to give his decision in .- N. Y. Herald, May 15.

"Fromember one day in making my hospital rounds, a patient just arrived presented an amputated forearm, and in doing so could hardly restrain a broad laugh; the titter was constantly on his face.

'What is the matter ? this does not strike me as a subject of laughter."

'It is not, doctor, but excuse me, I lost my arm in so furny a way that I still laugh when I look at it."

'What way ?'

'Our first sergeaut wanted shaving, and got me to attend to it, as I am corporal .-We went together in front of his tent: I was just applying the razor, when a cannon ball came, and that was the last I saw of his head and my arm. Excuse me, doctor, for

Louisville, Jan. 27, 1851. Louisville, Jan. 27, 1851.
The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seen.
It is to be hoped that the use of theer rods

may become general as an important auxiliary defence against a danger which must be regard ed as of no ordinary magnitude, to which all limitdings are liable.

B. SILLIMAN, Jr. Prof. of Chem. in the Univ. of Louisville:

This will certify that I have examined the Lightning Rods, Metable Points, and Libu-lating Attachments, manufactured by Mr. Spratt, of Cincinnati, Ohio, and regard them as conof Cincinnate, Ohio, and regard them as constructed in conformity to the general law of the electric fluid; and the Gilded Copper Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrods them.
